VARUN KUMAR DARBARI

IT BUSINESS ANALYST | CRM & CUSTOMER DATA SYSTEMS | SAAS IMPLEMENTATION

Gurugram, India | +91-9999074003 | work.varundarbari@gmail.com | linkedin.com/in/varun-darbari

PROFESSIONAL SUMMARY

IT Business Analyst specialising in CRM and customer data systems, featuring three years of consulting expertise supported by prior Product Specialist and Customer Success roles delivering requirements analysis, process improvement, and technology implementation for SMB and public sector clients. Experience includes requirements discovery, workflow and process analysis, technology evaluation, implementation coordination, documentation, and data/reporting. Specialization in CRM and customer data systems, supported by experience across SaaS customer delivery, product/customer integrations, business systems, and analytics.

Combines hands-on business analysis requirements elicitation, AS-IS/TO-BE process mapping, solution evaluation, UAT coordination, and stakeholder management with SaaS delivery and customer-lifecycle experience across Salesforce, HubSpot, Gainsight, and Jira. MS Information Systems, University of San Francisco (AACSB-accredited) - 4.0/4.0 GPA, ranked #1 in cohort, Beta Gamma Sigma Lifetime Member.

CORE SKILLS

Business Analysis: Requirements Elicitation & Documentation | Stakeholder Analysis | Process Mapping | AS-IS / TO-BE Analysis | Use Cases | Gap Analysis | User Stories & Acceptance Criteria | Solution Evaluation | UAT Planning | Business Process Improvement | SDLC

CRM & Customer Systems: Customer Lifecycle | Customer Journey Mapping | CRM Processes | HubSpot | Salesforce | Voice of the Customer | Customer Data

Data & Analytics: SQL/MySQL | Microsoft Excel | Power BI | Tableau | Data Modeling | ERD | Data Architecture | Data Visualization | AWS Redshift

Systems & Implementation: SaaS Implementation | Technology Evaluation | Jira | Miro | Change Management | Cross-functional Delivery | Issue & Escalation Management | Solution Presentations | Client Training & Adoption

PROFESSIONAL EXPERIENCE

Business Analyst & Technology Consultant | Freelance | India

Jan 2023 - Present | Project-based

- Elicited and documented business requirements across 30 SMB and independent client engagements spanning healthcare, SaaS/digital services, construction, and local services; running discovery sessions to define business problems, affected users, pain points, and measurable success criteria prior to solution recommendation.
- Mapped AS-IS workflows and designed TO-BE process models to remove manual handoffs, digitise paper based operations, and strengthen management reporting, reducing manual processing effort by approximately ~6 hours per week across client operations.
- Conducted solution evaluation and build-versus-buy assessments across business platforms including Google Workspace, Microsoft 365, Jira, Notion, and Zoom, matching documented requirements and budget constraints to fit-for-purpose tooling.
- Led implementation delivery end-to-end solution configuration, data structuring and migration, UAT coordination and client sign-off, functional documentation, user training, and post-go-live support.
- Designed structured customer and lead data processes, replacing ad-hoc record keeping with defined CRM pipelines, follow-up workflows, and Excel-based reporting contributing to approximately ~10% growth in qualified leads and improved customer response times for client businesses.
- Delivered regulated public-sector engagements covering project records, Measurement Books, progress documentation, tender and administrative workflows, and coordination with contractors, vendors, and government authorities through systems including eGramSwaraj and PFMS.

Customer Success Manager | Trumsy | India

Jun 2024 - Sep 2024

- Owned BoB and post-sales lifecycle for 33 SMB accounts, onboarding 21 customers across discovery, product configuration, adoption, training, and renewals while maintaining 90%+ account retention.
- Managed 12 product escalations and served as Voice of the Customer, documented customer requirements, product gaps, and business impact through stakeholder conversations translating feedback to internal stakeholders and findings into inputs for Product Development while working with the C-level executives maintaining proactive communication.
- Drove customer acquisition and account growth through cold outreach, meeting qualification, product demonstrations, and solution presentations.
- Analysed account usage and health signals to identify risk accounts and expansion opportunities; converted 6 customers to annual billing and trained 2 Community Managers supporting 40+ customer communities.

Product Specialist | iZooto.com | India

Dec 2020 - May 2021

- Acted as the bridge between customers, Product, and Development documenting customer issues and requirements, investigating client-side JavaScript and integration defects, and coordinating resolution through to closure.
- Conducted customer integrations and translated recurring feedback into defined feature inputs and prioritisation recommendations for Product and Engineering; integrated Google Analytics with the iZooto dashboard for performance monitoring.

Business Development Manager / Sales Development Manager | SpideysWeb.com | India
June 2017 - Nov 2020

- Progressed across Customer Support, Sales Development and Business Development responsibilities covering prospect discovery, customer outreach, qualification, relationship development, and solution conversations; generated and qualified 30+ leads per month.

LEADERSHIP EXPERIENCE

Secretary & Public Relations Officer | Association for Information Systems, University of San Francisco
Aug 2021 - Dec 2022 | Elected student leadership alongside full-time MSIS

- Elected by a 41 member student chapter to support governance, officer coordination, meeting agendas/minutes, action-item follow-up, and official communications with the university and external organizations.
- Co-led the "Grow with Google" workshop and managed industry/community engagement initiatives that contributed to 60% membership growth.
- Led PR, outreach, and communications. Coordinated chapter planning against strategic goals, streamlined administrative processes, and improved organizational efficiency by approximately 45%.

ACADEMIA INDUSTRY PARTNERSHIP PROJECTS

Customer Feedback Analysis & Systems Design | *UML* | *Draw.io* | *Jira* | *Text Analysis*
Designed a structured mechanism to analyse and categorise customer feedback into actionable product requirements using text analysis and pattern matching. Developed the supporting business case and system design using SDLC concepts, use cases, and data-flow diagrams to translate customer needs into a solution.

Applicant Tracking System - Data & Systems Design | *AWS Redshift* | *MySQL* | *ERD* | *DDL/DML* | *Python*
Designed a cloud based applicant tracking and candidate relationship management architecture to centralize candidate information and support end-to-end recruitment workflows using relational database design, SQL, and data management principles.

Business Analytics & Predictive Modeling | *Microsoft Excel* | *JMP Pro* | *Tableau* | *Power BI*
Developed business analytics and predictive models for industry case studies, applying forecasting, k-NN, regression trees, hypothesis testing, and data visualization to identify business trends, resource constraints, and growth opportunities and translate analytical findings into actionable recommendations.

Automated Product Recommendations - Cloud Infrastructure | *AWS Kinesis S3 EMR* | *Apache Spark* | *AWS IAM*
Designed a cloud based product recommendation pipeline for an e-commerce use case, streaming customer and order data through AWS Kinesis and Amazon S3 and processing aggregated purchasing data using Amazon EMR and Apache Spark to support personalized product recommendations.

Customer Success Lifecycle for Digital Business - Databricks | *Totango* | *Miro* | *CTS Model* | *Excel*
Developed a scaled Customer Success framework and customer journey model incorporating customer segmentation, cost-to-serve, LTV:CAC, engagement strategy, and lifecycle management to support product adoption and sustainable account growth.

EDUCATION

Master of Science in Information Systems | University of San Francisco | San Francisco, USA
Aug 2021 - Dec 2022 | GPA: 4.0/4.0 | #1 in Cohort | Beta Gamma Sigma Lifetime Member
Relevant Coursework: Business Analytics | Predictive Analytics | Data Architecture & Management | Customer Success | Product Management | Systems Analysis & Design | Project & Change Management | Information Security | IT Infrastructure
Bachelor of Technology in Mechanical Engineering | Dr. A.P.J. Abdul Kalam Technical University | India

PROFESSIONAL DEVELOPMENT

Salesforce Trailhead - Data Modeling | Additional applied exposure: AWS, CRM systems, cloud infrastructure, business analytics, data architecture, information security, and project/change management.
